Welcome

69th All India Congress of Obstetrics & Gynaecology

The Diamond City – Surat *Obstetrics and Gynecological Society – is all set to organise the* ***69th All India Congress of Obstetrics and Gynaecology (AICOG)*** *from* ***6th to 10th January 2027****.*

After 57 years since its establishment and 55 years of affiliation with FOGSI – the Federation of Obstetric and Gynaecological Societies of India – the vibrant Surat Obstetrics and Gynaecological Society has proudly won the prestigious and competitive bid to host the 69th All India Congress of allopathic specialists in Obstetrics and Gynaecology at the diamond and textile capital of India – the glorious city of Surat.

With an anticipated gathering of over 8,000–10,000 delegates and 2,000–3,000 exhibitors from the pharmaceutical and allied industries, this will be one of the largest global events of medical specialists in this field. The previous congress was held at Yashobhumi, New Delhi, from 14th–18th January 2026.

Meticulously planned by the Organising Committee chaired by former National Vice President of FOGSI, Dr. Nimish Shelat, with Scientific Chair Dr. Prakash Bhatt; Organising Secretaries Dr. Darshan Wadekar and Dr. Sejal Naik; and Treasurers Dr. Asha Bhatt, Dr. Dipti Patel, and Dr. Narendra Vaghela - AICOG 2027 Surat will bring together highly qualified and trained doctors in women's healthcare from across India and SAARC countries. National and international faculty from all continents - USA, UK, Europe, the Middle East, South Asia, the Far East, Australia, Canada, and South America — will grace the occasion.

Surat and South Gujarat contribute more than 25% of Gujarat's GDP, projected to rise to 35%, with all districts merged into a Special Economic Zone by NITI Aayog.

Based on a survey of delegates who attended the last conference in Delhi, Surat emerged as the most favoured and preferred fresh destination. The 8th largest metro city of India, Surat is a true shoppers' paradise for gems and jewellery, fabrics, textiles, clothing, and readymade garments. A mini India in itself, the city is home to a cosmopolitan population of 8.6 million representing all states of the country. Admired as the "Mumbai of Gujarat," it offers immense business opportunities, professional growth, and a thriving start-up ecosystem spanning semiconductors, solar panels, surgical equipment including stents, textile machinery, shipbuilding, and even army tank manufacturing by L&T.

A versatile industrial and cultural hub, Surat has been home to legendary personalities including veteran actor Sanjeev Kumar, Prime Minister Morarji Desai, poet Kavi Veer Narmad, cricketers Nari Contractor and Rusi Surti, and India's first Chief Justice Shri Kania, among many others.

Surat and South Gujarat stand as a symbol of communal harmony across religions. Revered as Parshuram Bhumi and the cremation site of Karna at Ashwinikumar for Hindus; the historic port of Sanjan where Parsis from Persia first landed; the Makkaipul from where Muslims embarked on Haj pilgrimage via the Tapi river port; and the site of the British East India Company's establishment at Surat Castle in the seventeenth century — the city reflects a rich and inclusive heritage.

Surat is equally legendary for its cuisine - unmatched and unchallenged. As the age-old saying goes:
"If one prefers to die in Kashi, one must eat in Surat."

The Core Committee of AICOG 2027 Surat includes Co-Chairmen Dr. Praful Doshi, Dr. R.C. Gupta, and Dr. Ashwin Vacchani; Vice Chairpersons Dr. Sandhya Chhasatia, Dr. Jagruti Desai, Dr. Anita Shah, Dr. Rajiv Vyas, Dr. Rajesh Tuli, and Dr. Jayesh Patel, along with senior members of the Surat Obstetrics and Gynaecological Society.

With an exceptional scientific programme featuring a treasure trove of distinguished faculty from India and abroad, AICOG 2027 Surat is an eagerly awaited event, with registrations already being booked in advance. The Organising Committee extends a warm welcome to all gynaecology specialists, as well as the pharmaceutical, medical, and surgical industries from every corner of India. The congress will host one of the largest medical exhibitions alongside a meticulously designed scientific programme, distributed across multiple halls for simultaneous sessions, supported by top-tier audiovisual equipment and advanced transmission technologies provided by leading companies.

6th JANUARY, 2027

PRE CONFERENCE WORKSHOPS

FULL DAY

- Menopause
- Advanced ART
- Critical Care in Obs
- Endoscopy
- Fetal Medicine
- Vaginal Surgery (Sirish Seth)

PRE-LUNCH

- Robotics in GYN
- Preventive Oncology
- Functional and Regenerative Gynecology

POST-LUNCH

- Gynecological Sonography
- Hysteroscopy
- Vaginal Surgery

7th JANUARY, 2027

DR CG SARAIYA CME

8.30 am to 12.30 pm followed by Lunch

Tentative Scientific Programme

Friday | Day 1 | 8th January, 2027

Time	Hall	Session Title
9:00–10:00	Hall 1	**FOGSI - FIGO JOINT SESSION**
10:00–11:00	Hall 1	**Session: "She Complains, Should I Worry — Real Patients, Real Answers"** **Session: Common Ailments of Pregnancy — To Treat or Not?** ▸ GI disturbances and hyperemesis — two different entities or scaling intensities? **Case 1 — A 10-week primigravida with intractable nausea and vomiting: GI disturbance or hyperemesis?** ▸ Striae distensae — remedies abound; some relation to perineal tear? ▸ Backache, muscle cramps — do help, make her life bearable! ▸ Audience Interaction / Discussion ▸ Q&A
11:00–12:00	Hall 1	**Session: Ectopic Pregnancy — Early, Very Early, Further Early Diagnosis!** ▸ Diagnostic algorithm and novel biomarkers beyond hCG ▸ Management — expectant / medical / surgical: pick your choice ▸ Emerging therapies and research — exciting options on the horizon ▸ Audience Interaction / Discussion ▸ Q&A
12:00–13:00	Hall 1	**FOGSI AMEDEUS SHEREYAS ORATION**
13:00–14:00	**Hall 1**	**LUNCH BREAK**
14:00–15:00	Hall 1	**FOGSI - ICOG C.L. Zaveri Endowment Symposium**
15:00–15:30	Hall 1	**FOGSI - C.L.Zaveri Symposium (cont.)**
15:30–16:00	Hall 1	**FOGSI - BOGS Prof. B.N. Chakravarty Oration**
16:00–17:00	Hall 1	**MOTION: "This House Believes That All Women With Significant Cardiac Disease Should Be Delivered in a Tertiary Cardiac Centre — Not in Their Nearest Maternity Hospital"** ▸ Pregnant Woman Has the Heart! — Pre-pregnancy to Delivery ▸ Wake up early — pre-pregnancy assessment, risk stratification and contraindications ▸ Antepartum management - set the sail ▸ Labor and delivery management — the D-Hour! ▸ Audience Interaction / Discussion ▸ Q&A

9:00–10:00	Hall 2	**Menstruation — Newer Directions and Change of Concepts** ▸ Endometrium is an organ! — teleological concept ▸ Advanced imaging techniques for endometrial evaluation ▸ Initiation-cessation of menstruation — FIGO AUB classification and concept of management ▸ Audience Interaction / Discussion
10:00–10:05	Hall 2	**Q&A**
10:05–11:05	Hall 2	**AUB-O — Many Are Self-Limited Episodes!** ▸ Heavy Menstrual Bleeding — road map to diagnosis and management ▸ Primary Dysmenorrhoea ▸ Premenstrual Syndrome and PMDD ▸ Audience Interaction / Discussion ▸ Q&A
11:05–12:00	Hall 2	**Session: "Adenomyosis: Disease, Diagnosis, or Distraction?"** ▸ Controversy 1: Is adenomyosis an age-related normal variant or a true pathological entity? ▸ Myo-endometrium getting grey hair! — age-related ailment, new insight ▸ Controversy 2: MRI vs Ultrasound — can imaging alone justify treatment? ▸ Diagnostic challenges — MRI vs ultrasound; hormones, inflammatory signatures, vascular changes ▸ Management strategies — symptom management: HMB, pain, bulk symptoms ▸ Audience Interaction / Discussion ▸ Q&A
12:00–13:00	**Hall 2**	**ORATION**
13:00–14:00	**Hall 2**	**LUNCH BREAK**
14:00–15:00	Hall 2	**Leiomyoma — Archaeology to Molecular Biology** ▸ FIGO classification and imaging strategies ▸ Molecular biology and future of treatment ▸ Minimally invasive interventions — sword or poison? ▸ Audience Interaction / Discussion ▸ Q&A

Time	Hall	Session Title
15:00–16:00	Hall 2	**Endometriosis — Basics and Pathophysiology** ▸ The known, the unknown and the future: inflammatory and immunological pathways, miRNA transcriptomics ▸ Unveiling the fibrotic puzzle of endometriosis — an overlooked concern ▸ Diagnostic avenues — non-invasive biomarkers, advanced imaging and ultrasound innovations ▸ Audience Interaction / Discussion ▸ Q&A
16:00–17:00	Hall 2	**A Surgeon Who Has Seen It All — Forty Years of Cutting, Cauterising and Reconsidering** ▸ Endometriosis — ▸ The teleological approach — hormonal treatment ▸ Surgical management — fertility-sparing and fertility-enhancing ▸ Definitive surgery — cure of symptoms: at what cost? ▸ Audience Interaction / Discussion ▸ Q&A
9:00–10:00	Hall 3	**First Trimester Screening — Conventions Need Not Be Suffocating!** ▸ PAPP-A and free -hCG — interpretation and clinical significance ▸ Screening algorithms and risk calculation methodologies with ultrasound markers ▸ Early - 13/52 - fetal anatomy survey and detection of major structural anomalies ▸ Audience Interaction / Discussion ▸ Q&A
10:00–11:00	Hall 3	**Second Trimester Conventional Scans — Beyond the Convention** ▸ Quad screen components — AFP, hCG, uE3, inhibin-A interpretation ▸ Detailed fetal anatomy survey — systematic approach and documentation ▸ Soft markers for aneuploidy — clinical significance and management protocols ▸ Audience Interaction / Discussion ▸ Q&A
11:00–12:00	Hall 3	**Beyond Aneuploidy — Neural Tube Defects and Sequential Screening** ▸ Neural tube defect screening with maternal serum AFP ▸ Sequential and contingent screening protocols ▸ Managing false positives/negatives — counselling strategies and confirmatory testing ▸ Audience Interaction / Discussion ▸ Q&A
12:00–13:00	**Hall 3**	**ORATION**
13:00–14:00	**Hall 3**	**LUNCH BREAK**
14:00–15:00	Hall 3	**FOGSI-GOI Session**
15:00–16:00	Hall 3	**Panel Discussion: The Counselling Room — What We Say, What They Hear, What Actually Happens** ▸ Table A — Breaking the news of a high-risk NIPT result: what words work? ▸ Table B — Carrier screening: who decides how much to tell the partner? ▸ Table C — Post-counselling challenges: when the couple disagrees on termination. ▸ Table D — Counselling in a language the couple does not fully share with the clinician. **Genetic Counselling — Content and Approach** ▸ Content of the counselling session — what must always be covered ▸ Pre- and post-counselling challenges ▸ Carrier screening — of whom? What does it include?
16:00–17:00	Hall 3	**Cell-Free DNA Testing** ▸ Expanding applications ▸ Karyotyping and microarray ▸ Genome sequencing and DNA storage ▸ Audience Interaction / Discussion ▸ Q&A
9:00–10:00	Hall 4	**Single / Reduced Port Laparoscopy — Ports Are Like Clothes, Get Less and Less!** ▸ Instruments — don't bring a knife to a gun fight! ▸ Patient selection — let it be bespoke! ▸ Compare with conventional — benefits yes, cost perhaps! ▸ Audience Interaction / Discussion ▸ Q&A
10:00–11:00	Hall 4	**3D/4D Visualization in Gynaecological Surgery** ▸ Enhanced reality visualizations ▸ Varieties in visualization platforms ▸ Fluorescence-guided surgery ▸ Audience Interaction / Discussion ▸ Q&A

Time	Hall	Session Title
11:00–12:00	Hall 4	**Panel Discussion: Small Holes, Big Decisions — Managing the Unexpected in Micro-Access Surgery** **Cases:** **Clip 1 — Unexpected dense adhesions encountered at microlaparoscopy: convert, persist, or hybrid?** **Clip 2 — Energy source failure mid-procedure: protocol and improvisation.** **Clip 3 — Unexpected endometriosis discovered during diagnostic microlaparoscopy: treat now or stage?** **Clip 4 — Patient deteriorating on table — needlescopy vs conversion decision algorithm.** **Miniaturization and Microlaparoscopy** ‣ Needlescopy instruments ‣ Application and indications ‣ Conventional and micro ports — comparative outcomes
12:00–13:00	**Hall 4**	**ORATION**
13:00–14:00	**Hall 4**	**LUNCH BREAK**
14:00–15:00	Hall 4	**FOGSI- Brig. S.D. Khanna Lecture**
15:00–16:00	Hall 4	**Panel Discussion: Cutting-Edge Instruments — Let the Edge Break the Ground!** **Cutting-Edge Instruments — Let the Edge Break the Ground!** ‣ Newer energy sources — advanced bipolar, ultrasonic devices, plasma-based cutting, tissue sealing ‣ Safety profiles and thermal injury prevention — the bug in every surgeon's gloves! ‣ Smart instruments and sensors — force feedback, pressure-sensitive, real-time tissue chara cterization
16:00–17:00	Hall 4	**Recent Innovations — Specimen Retrieval, Barbed Sutures and Closure** ‣ Specimen retrieval innovations — contained morcellation techniques and safety protocols ‣ Barbed sutures and closure techniques — self-retaining sutures, tissue adhesives and sealants ‣ Minimizing operative time and improving outcomes ‣ Audience Interaction / Discussion ‣ Q&A

9:00–10:00	Hall 5	**PPH — Never-Ending Nightmare: New in Basic Science** ‣ Redefining the ailment ‣ Precision medicine, technology integration and pharmacogenomics ‣ Beyond uterotonics — the first response ‣ Audience Interaction / Discussion ‣ Q&A
10:00–11:00	Hall 5	**PPH — Test Your Skill, Test Your Reflexes: Surgical Interventions** ‣ Compression sutures ‣ Stepwise devascularization and hybrid surgery ‣ Ablative surgery ‣ Audience Interaction / Discussion ‣ Q&A
11:00–12:00	Hall 5	**FOGSI-DHEERA Oration**
12:00–13:00	**Hall 5**	**ORATION**
13:00–14:00	**Hall 5**	**LUNCH BREAK**
14:00–15:00	Hall 5	**Conventional symposium: Sepsis: The Horror of the "Super Bug" — Foundations** ‣ Updated guidelines and antimicrobial stewardship ‣ Infection markers and diagnosis ‣ Defining the obstetric sepsis landscape — why it is uniquely dangerous
15:00–16:00	Hall 5	**Sepsis — Clinical Presentations: Beware, It Creeps in Several Disguises** ‣ PROM and PPROM. Serum and vaginal Interleukins as predictor of intra-amniotic infection in PPROM ‣ Extended vaccination during pregnancy ‣ Specific infectious diseases — UTI, influenza, RSV, candidal vaginal infection ‣ Audience Interaction / Discussion ‣ Q&A
16:00–17:00	Hall 5	**Panel Discussion: Critical Care in Obstetrics — Massive Transfusion & Sepsis Resuscitation** ‣ Discussion Points: Triggering the MTP protocol efficiently, executing damage-control surgical choices, and navigating resource limits in a crisis.
17:00–17:10	Hall 5	**Critical Care in Obstetrics — Always Align Resources to Time and Place**
17:10–17:25	Hall 5	**Damage-reducing resuscitation and surgery**
17:25–17:45	Hall 5	**Sepsis and prevention — intrapartum azithromycin evidence**
17:45–17:55	Hall 5	**Massive transfusion protocol | Obstetric HDU/ICU — evolving models of care**
17:55–18:00	Hall 5	**Audience Interaction / Discussion**
18:00–18:05	Hall 5	**Q&A**

Time	Hall	Session Title
9:00–10:00	Hall 6	**ART — Let It Assist Nature, Not Replace It: Ovulation Induction** ▸ Laparoscopic drilling in PCO women — why do we not discuss it? ▸ Extended regime of aromatase inhibitors vs 5-day for PCO women ▸ CC+AI vs. only AI or only CC ▸ Audience Interaction / Discussion ▸ Q&A
10:00–11:00	Hall 6	**Conventional symposium:** **Ultra sound monitoring – all is not "honkey-dorry" There are pit-falls.** **When do I trigger the "Follicle Blast"? How do I achieve and monitor?** **The vagaries of soil! Endometrial "thickness" baffles us and the patient too!**
11:00–12:00	Hall 6	**Panel Discussion: The Endometrium Speaks — Are We Listening** **Contested Propositions: "Manipulating the endometrial microbiome before FET is science, not marketing"** ▸ The tubal factor has lost its relevance? ▸ Unexplained infertility– forget if can not be explained! Can it be "Treated"?
12:00–13:00	**Hall 6**	**ORATION**
13:00–14:00	**Hall 6**	**LUNCH BREAK**
14:00–15:00	Hall 6	**Class-room assessment -Mock Exam** ▸ Semen status – New WHO protocol – rationale and interpretive actions ▸ Any treatment for male partners? Evidence for therapy ▸ Intra Uterine Insemination – Real Indications/Preparation protocols/procedure/when to upscale? ▸ Audience Interaction / Discussion ▸ Q&A
15:00–16:00	Hall 6	**Fertility Preservation — Systemic Ovarian / Testicular Tissue Preservation** ▸ Ovarian tissue cryopreservation and transplantation ▸ Emergency ovarian tissue preservation ▸ "ART Add - ons" what relly works or nothing works! ▸ Audience Interaction / Discussion ▸ Q&A
16:00–16:22	Hall 6	**ART Practice Scenario in 2037 — A Decade Is Too Far?** ▸ Mitochondrial replacement — technical vs ethical considerations ▸ Stem cell applications and induced pluripotent stem cells (iPSC) ▸ Artificial gametes — the horizon expands or finds new horizon?
16:22–17:00	Hall 6	**Laboratory Innovations and Embryo Monitoring** ▸ Time-lapsed embryo monitoring system and AI-assisted selection ▸ CRISPR-Cas9 gene editing — nucleic guide and enzymatic scissors! ▸ Novel Embryo Culture & Incubation Systems ▸ Audience Interaction / Discussion ▸ Q&A

9:00–10:00	Hall 7	**FOGSI - AOFOG JOINT SESSION**
10:00–10:30	Hall 7	**FOGSI-BOGS Dr. Subhash Mukherjee Lecture**
10:30–11:00	Hall 7	**FOGSI-Dr. N. Palshetker Oration**
11:00–12:00	Hall 7	**Problem → Solution Symposium** **Case 1 — A 38-year-old woman with Type 1 DM and BMI 34, asking about pregnancy: where do I even start? Senior A: the evidence on optimisation; Senior B: the conversation about risk acceptance.** **Case 2 — A couple where the wife is a thalassaemia carrier and husband has not yet been tested; they want to conceive next month. Junior raises: what is my legal and ethical obligation? Seniors navigate.** **Case 3 — Are the supplements I am prescribing evidence-based or are they marketing? Junior presents a prescription from their own clinic. Seniors review item by item.** **Pre-conceptional Counselling — Before the Journey Begins** ▸ Core components — please tick mark all the boxes ▸ Micronutrients and pre-conceptional supplements — marketing gimmicks? Are they worth the expense? ▸ Impact of pre-conceptional counselling — the epidemiologist's nightmare!
12:00–13:00	**Hall 7**	**ORATION**
13:00–14:00	**Hall 7**	**LUNCH BREAK**
14:00–15:00	Hall 7	**Hepatic Disorders in Pregnancy — Insidious but Positively Villainous** ▸ Infective hepatitis — the bane of our society ▸ Acute fatty liver of pregnancy — the fetus turns a foe! ▸ HELLP syndrome — has to be HELPED and RESCUED! ▸ Audience Interaction / Discussion ▸ Q&A

Time	Hall	Session Title
15:00–16:00	Hall 7	**Conventional symposium: Hepato-Biliary-Pancreatic Ailments in Pregnancy** **Hepato-Biliary-Pancreatic Ailments in Pregnancy** ▸ Intrahepatic cholestasis — one of the trilogy which needs termination only ▸ Cholelithiasis during pregnancy — disguise but no blessing! ▸ Benign pancreatic conditions — that can turn into nightmare
16:00–17:00	Hall 7	**Pregnancy with Anaemia — Creeps Through the Back Door, Insidiously** ▸ The silent killer persists — diagnosis or only prophylaxis? ▸ Simple but effective monitoring and treatment — motivate woman and her caregiver! ▸ The puzzle of non-responding anaemias — detect how? Treat simple to complex situations ▸ Audience Interaction / Discussion ▸ Q&A
9:00–10:00	Hall 8	**Colposcopy — Seeing Is Believing, "Microscoping" Is Confirming** ▸ Indications and contraindications for colposcopy ▸ Normal vs abnormal findings — with visual examples ▸ Biopsy techniques and when to biopsy ▸ Audience Interaction / Discussion ▸ Q&A
10:00–11:00	Hall 8	**Conventional symposium: Implantation Failure — Turn It Inside Out and It Will Succeed** ▸ Endometrial thickness vs endometrial patterns — what really matters? ▸ HLA compatibility issues between partners — what does the literature teach us? ▸ Culture media effects on implantation potential
11:00–12:00	Hall 8	**Office Gynaecology Procedures and Office Hysteroscopy — For "Office Babus"!** ▸ Patient selection ▸ Diagnostic procedures ▸ One can do a lot more — advanced interventions ▸ Audience Interaction / Discussion ▸ Q&A
12:00–13:00	**Hall 8**	**ORATION**
13:00–14:00	**Hall 8**	**LUNCH BREAK**
14:00–15:00	Hall 8	**TWO ORATIONS: Reperfusion Injury — One Restores the Supply, Yet It Harms!** ▸ 1. Mother — how she responds A. Fetus — how it behaves B. Newborn and further — what is the long-term result? ▸ 2. A. Perinatal asphyxia / HIE — the reperfusion injury around birth. B. Chronic in-utero reperfusion/placental insufficiency (FGR) ▸ 3. Reperfusion Injury Sustained Postnatally – precis
14:55–15:05	Hall 8	**Audience Interaction / Discussion**
15:05–15:10	Hall 8	**Q&A**
15:10–16:10	Hall 8	**Conventional symposium : Non-Immune Hydrops — The Early Signs That Warn or Inform** ▸ Early signs that warn or inform us ▸ Fetal behaviour and management ▸ Mirror syndrome
16:10–17:10	Hall 8	**Reverse Panel Disscussion: Reducing Maternal Mortality — How Far Have We Reached? Let Us Reappraise** ▸ The white FIGO paper and the plan of ambition ▸ Current status — where do we stand? ▸ Now to where? Woods are lovely but we have promises to keep!
9:00–10:00	Hall 9	**Hypertensive Disorders of Pregnancy — Session 1: The Killer That Almost Evades!** ▸ Nomenclature — its significance and delta HT: is there anything in a name? Shakespeare's romanticism? ▸ Pre-eclampsia — screening and prevention: can one really prevent? ▸ Pre-eclampsia — phenotypic expressions and prognostications: look for RNA signatures ▸ Audience Interaction / Discussion ▸ Q&A
10:00–11:00	Hall 9	**Hypertensive Disorders — Session 2: Pre-eclampsia Management and Sequelae** ▸ Management issues — Mother and Fetus: tug of war? Control of HT and fetal monitoring ▸ Decision to terminate — between Scylla and Charybdis: modus operandi ▸ Sequelae and long-term prognosis — it may not be a one-time event! ▸ Audience Interaction / Discussion ▸ Q&A

Time	Hall	Session Title
11:00–12:00	Hall 9	**Conventional symposium: Perinatal Medicine** ▸ Risk of stillbirth according to biologically vulnerable phenotypes ▸ Materno-fetal monitoring — reversing the paradigm ▸ Hypoxic ischaemic encephalopathy and placentation
12:00–13:00	**Hall 9**	**ORATION**
13:00–14:00	**Hall 9**	**LUNCH BREAK**
14:00–15:00	Hall 9	**Problem → Solution Symposium** **Case 1 — Two unexplained losses at 8–10 weeks: when do I start investigating? Junior presents; seniors debate: ESHRE vs ASRM vs clinical pragmatism.** **Case 2 — Three losses, antiphospholipid antibodies positive, husband insists IVF is the answer. Junior presents the consultation dilemma; seniors navigate the science and the couple dynamics.** **Case 3 — Unexplained RPL, all tests normal, couple wants 'something to try.' Junior presents; seniors address the evidence behind progesterone, heparin, and the placebo of reassurance.** **Recurrent Pregnancy Loss — So Near, Yet So Far!** ▸ Why do experts not agree? Definitions differ! ▸ Endocrinology of pregnancy — hormones, hormones, hormones: is that really so? ▸ Chorio-decidual interface immune dialogue
15:00–16:00	Hall 9	**Panel Discussion: RPL (cont.) — Chromosomal and Genetic Investigation** **The Genetic Gridlock in RPL — What to Order, What to Ignore** **RPL (cont.) — Chromosomal and Genetic Investigation** ▸ Chromosomal and genetic study of POC — avail with discrimination, interpret with caution! **what not to do? When to do what? Always apply T&C before requisitioning.** ▸ Newer management options — looking beyond the usual suspects
16:00–17:00	Hall 9	**RPL (cont.) — Newer Management Options** ▸ Pre-implantation genetic testing — when does it help in RPL? ▸ Phenome-wide analysis of sequelae of RPL

9:00–10:00	Hall 10	**AI**
10:00–11:00	Hall 10	**AI**
11:00–12:00	Hall 10	**AI**
12:00–13:00	**Hall 10**	**ORATION**
13:00–14:00	**Hall 10**	**LUNCH BREAK**
15:00–16:00	Hall 10	**OPEN FORUM PANEL - ASK ANYTHING Civil and criminal negligence Documents can make you win or lose Preventive Medicolegal issues**

Tentative Scientific Programme

Saturday | Day 2 | 9th January, 2027

Time	Hall	Session Title
9:00–10:00	Hall 1	**FOGSI-SAFOG Session**
10:00–11:00	Hall 1	**FOGSI-RCOG Joint Session**
11:00–12:00	Hall 1	**Panel Discussion: Renal Diseases in Pregnancy — The Nephrologist Is on the Front Line!** ‣ Chronic kidney disease and pregnancy — more advancement, more predicament ‣ Acute kidney diseases — bolt from the blue, respond urgently ‣ Pregnancy in renal transplant patients — meddle with nature, Frankenstein rises
12:00–13:00	**Hall 1**	**ORATION**
13:00–14:00	**Hall 1**	**LUNCH BREAK**
14:00–15:00	Hall 1	**Panel Discussion: Auto-Immune Disorders — I Against Myself!** ‣ Early identification, biomarkers for progression — there are clues, search and prevent ‣ Protocols for management — biologic therapy: new, newer, further newer avenues ‣ Postpartum maternal disease flare and long-term outcome of children born to AID mothers
15:00–16:00	Hall 1	**Panel Discussion: Thyroid Disorders in Pregnancy — Not Only Mother; Fetus and Lifespan Matter** ‣ Maternal thyroid function and fetal mirroring — mirror does not lie ‣ Subclinical hypothyroidism — diagnostic dilemma and fetal morbidity ‣ Maternal thyrotoxicosis and autoimmune thyroiditis — the victim card always loses
16:00–17:00	Hall 1	**Acquired Thrombophilia** ‣ Controversy 1: Does every confirmed APLA-positive patient warrant treatment in pregnancy? ‣ Summary A — The haematologist: thrombosis risk is real; treat all confirmed positives. ‣ Summary B — The sceptic: single positive tests, low titres, and clinical context; we are over-medicalising. Audience vote → reconciliation. Problem to solution Symposium ‣ APLA and pregnancy — pathophysiology, diagnosis; do not rush to treat/over-treat ‣ Management guidelines — treatment made easy; no half-cooked brain waves! ‣ Controversy 2: Aspirin + heparin vs aspirin alone — is the combination always necessary? ‣ Summary A — Combination therapy: trial data, risk stratification, international guidelines. ‣ Summary B — Aspirin alone: adequate for low-risk APLA; heparin adds bleeding risk and cost. Audience vote → panel consensus and practical Indian algorithm. Conventional lecture: ‣ Newer options and evidence — worlds beyond aspirin and heparin - 10 Minutes

9:00–10:00	Hall 2	**Panel Discussion: Pelvic Myofascial Supports and Neuronal Integrity — "We Have Moved** **SESSION TITLE: "A Floor That Has Given Way — Reconstruct or Rehabilitate?"** **Conventional symposium** ‣ Pelvic floor and perineal muscles — smooth and skeletal muscle unit concept ‣ Pelvic diaphragm viewed from inside — laparoscopic, histological and immunohistological evidences ‣ Vignette 1 — 45-year-old, stage II cystocele, no prior surgery, sexually active: what comes first? ‣ Vignette 2 — Post-hysterectomy vault prolapse in a 60-year-old: which surgical option and why? ‣ Vignette 3 — Young woman (32 yrs) post-delivery with stress incontinence and early prolapse: conservative limit? ‣ Pelvic floor muscle training — strengthen the floor, will the rest improve?
10:00–11:00	Hall 2	**Conventional symposium: Pelvic Organ Prolapse — Something, Somewhere Did Slacken!** ‣ Clinicians, rejoice! Clinical assessment — the best tool for management decision ‣ Imaging for structural integrity ‣ Functional assessment — urodynamics and anal canal assessment
11:00–12:00	Hall 2	**Surgical Reconstruction of Pelvic Floor** ‣ Preventing prolapse after non-prolapse gynaec surgery and after prolapse repair ‣ Cafeteria approach and fusion recipes ‣ Perioperative interventions in prolapse surgery ‣ Audience Interaction / Discussion ‣ Q&A
12:00–13:00	**Hall 2**	**ORATION**
13:00–14:00	**Hall 2**	**LUNCH BREAK**
14:00–15:00	Hall 2	**Conventional symposium: Synthetic Supports for Prolapse — Mesh Controversy** ‣ Mesh controversy — current evidence ‣ The long-term results with mesh for various compartments ‣ Biological mesh and tissue engineering

Time	Hall	Session Title
15:00–16:00	Hall 2	**Panel Discussion: Uro-gynaecology — Two Roads Cross? No, They Align!** ▸ Be proactive — assessment and patient-specific procedures; urodynamics: interpret shrewdly ▸ Stress incontinence correction — tricks of the trade, benefits and red flags ▸ Newer management avenues
16:00–17:00	Hall 2	**Urinary Incontinence — Overactive Bladder and Beyond** ▸ Overactive bladder — different ailment, different management ▸ Urethral syndrome — multiple titles, single entity? ▸ Bladder pain syndrome / urethral stenosis — intractable for woman and gynaecologist ▸ Audience Interaction / Discussion ▸ Q&A
9:00–10:00	Hall 3	**Fetal Vascular Assessment** ▸ Fetal–adrenal–placental interaction ▸ Imaging — colour Doppler ▸ Molecular markers ▸ Audience Interaction / Discussion ▸ Q&A
10:00–11:00	Hall 3	**Fetal Growth Restriction** ▸ Perfusion disorders ▸ Growth assessment ▸ Surveillance protocols and delivery decisions — timing and method ▸ Audience Interaction / Discussion ▸ Q&A
11:00–12:00	Hall 3	**Fetal Neurology and Maturation** ▸ Gestational age milestones ▸ Fetal behavioural assessment ▸ Fetal pain — the evidence and the ethics ▸ Audience Interaction / Discussion ▸ Q&A
12:00–13:00	**Hall 3**	**ORATION**
13:00–14:00	**Hall 3**	**LUNCH BREAK**
14:00–15:00	Hall 3	**Panel Discussion: Advanced Fetal Surveillance - Invitation for Research** ▸ 3D/4D ultrasound in prenatal diagnosis and screening ▸ Fetal cardiac assessment ▸ Fetal neurosonogram
15:00–16:00	Hall 3	**Fetal Screening — Invitation for Research** ▸ Great maternal/obstetric syndromes ▸ Very early first trimester scans and challenges ▸ Fetal MRI ▸ Audience Interaction / Discussion ▸ Q&A
16:00–17:00	Hall 3	**The Fetal Surgeon Speaks — Miracles, Mistakes, and What Is Next** ▸ Established Surgical Repairs ▸ Emerging Technologies — minimally invasive, image-guided interventions & pharmacological therapy ▸ Innovative Approaches — in-utero gene therapy, fetal stem cells & enzyme replacement ▸ 1. Hot Seat Question 1: “What was the moment you realised fetal surgery had become real medicine — not experimental?” ▸ 1. Hot Seat Question 2: “Tell me about a procedure that did not go as planned and what you did.” ▸ 1. Hot Seat Question 3: “In-utero gene therapy — hype, hope, or imminent reality? Give me your honest personal view.” ▸ Audience Interaction / Discussion ▸ Q&A
9:00–10:00	Hall 4	**MIS for Endometriosis — Deep Infiltrating Disease** ▸ Deep infiltrating endometriosis — surgical approach ▸ Bowel and urinary tract involvement ▸ Long-term outcomes, recurrence prevention and low-FODMAP diet for gut symptoms ▸ Audience Interaction / Discussion ▸ Q&A
10:00–11:00	Hall 4	**Conventional symposium - Leiomyoma — Minimally Invasive Surgical Approach** ▸ Minimally invasive alternatives to hysterectomy — staged UAE for huge, symptomatic fibroids ▸ Sandwich therapy for leiomyoma ▸ Fertility outcomes post-laparoscopic myomectomy and endometriosis

Time	Hall	Session Title
11:00–12:00	Hall 4	**Gynaecological Oncology Advances — Do They Translate to Patient Benefits?** ▸ Sentinel lymph node mapping innovation ▸ Minimally invasive radical procedures – which trial? ▸ Staging laparoscopy with AI assistance ▸ Audience Interaction / Discussion ▸ Q&A
12:00–13:00	**Hall 4**	**ORATION**
13:00–14:00	**Hall 4**	**LUNCH BREAK**
14:00–15:00	Hall 4	**PANEL DISSCUSSION: MOTION: This House Believes That Robotic Surgery in Gynaecology Offers Patients Better Outcomes Than Advanced Laparoscopy — and Justifies the Additional Cost** **Robotic Assistance — Will Robots Assist, Associate or Profess Us?** **Evolution of robotic surgery — familiarize with Da Vinci and MIRA systems** ▸ Specialized applications: endometriosis, oncology and complex benign procedures ▸ Robotic vs laparoscopic vs open surgery — comparative efficacy, outcomes and risk **Conventional lecture:** ▸ Robotics – a step backward? Listen to the master! – Dr. Smit Patel – Ahmedabad
15:00–16:00	Hall 4	**Panel Discussion: Ensuring Safety with Robotic Assistance** ▸ Standardized safety checklist – ▸ Complication prevention strategies ▸ Emergency management protocols
16:00–17:00	Hall 4	**Conventional symposium: Regenerative Medicine in Gynaecology** ▸ Stem cell therapy and organoids ▸ Hormonal dysfunction — ovarian and endometrial regeneration ▸ Placental and pelvic floor regeneration

9:00–10:00	Hall 5	**Problem to solutions symposium : Benign Diseases — Quite Frequent but Often Gaslighted!** ▸ Cervical lesions — erosions and ectropions ▸ Benign vulval diseases and vulval dermatosis (Lichen Planus, Lichen Atrophicus, Venereal Warts) ▸ Pre-malignant lesions of the vulva
10:00–11:00	Hall 5	**Panel Discussion: Cervical Cancer Prevention — Let Us Take a Re-look** **Screen, Vaccinate, Self-Sample — Which Levers Do We Pull First in India?** **Table-A: Screening programmes and algorithm — compare Indian scenario with other countries** **Table-B: Vaccination schedule — merits a new look; single-dose vaccination** **Table-C: New innovations — self-sampling, AI assistance**
11:00–12:00	Hall 5	**Conventional symposium : Endometrium and Ovarian Cancer Prevention** ▸ Screening for endometrium ▸ Progesterone — local and systemic ▸ Ovarian cancer prevention / screening — IOTA, O-RADS, ADNEX
12:00–13:00	**Hall 5**	**ORATION**
13:00–14:00	**Hall 5**	**LUNCH BREAK**
14:00–15:00	Hall 5	**Panel Discussion: Pre-malignant Lesions — Catch and Treat Before They Turn Sinister** ▸ Cytology and histology — the eyes at the eyepiece matter ▸ Management of cervical pre-malignant lesions ▸ Endometrial pre-malignant lesions
15:00–16:00	Hall 5	**Molecular Profiling for Genital Cancers — Welcome to the New World!** ▸ Endometrial cancer and BRCA ▸ Emerging biomarkers of tumour mutational burden ▸ Targeted molecular therapy ▸ Audience Interaction / Discussion ▸ Q&A
16:00–17:00	Hall 5	**Conventional symposium:** ▸ Cervical cancer — surgical innovations, ▸ Radiotherapy — newer tools and Neo-adjuvant chemotherapy. ▸ ------

9:00–10:00	Hall 6	**FOGSI RESERVED - Prof. S.N. Tripathy Endowment Lecture**
10:00–11:00	Hall 6	**FOGSI RESERVED - R. Pai / H. Pai Badlav Oration**

Time	Hall	Session Title
11:00–12:00	Hall 6	**Panel Discussion: Contraception — Regulate the Reproduction; Search for the Ideal Is Eternally Ongoing** **Eligibility criteria — who qualifies and who gets an alternate tool?** **Controversy 1: Should eligibility criteria for IUDs be liberalised further for adolescents and nulliparous women?** ▸ Summary A — Expanding access prevents more unintended pregnancies than any risk avoidance. ▸ Summary B — Caution is warranted: expulsion rates, PID risk in high STI-risk populations. ▸ Vote + reconciliation. ▸ Intra-uterine devices — they are vehicles; what novel things might they carry? ▸ Steroid contraceptives — new molecules or cosmetic lift? **Controversy 2: Are new steroid contraceptive molecules genuinely different — or cosmetic reformulation.** ▸ Summary A — The pharmacologist: new molecules, new receptor profiles, real clinical differences. ▸ Summary B — The clinical epidemiologist: no outcome data; marketing driving prescription change. ▸ Final Arbiter - 1 ▸ Vote + consensus.
12:00–13:00	**Hall 6**	**ORATION**
13:00–14:00	**Hall 6**	**LUNCH BREAK**
14:00–15:00	Hall 6	**The Frontiers that change, revert and further change!** **- Contraception (cont.) — Surgical and Male Contraception** ▸ Optimizing post partum care - Lactation amenorrhoea method — modus operandi and efficacy ▸ Surgical contraception – permanent solutions/ How much desirable? ▸ Male contraception — why should females have all the burden? ▸ Audience Interaction / Discussion ▸ Q&A
15:00–16:00	Hall 6	**Panel Discussion: Menopause — Me…(k)No(w)…Pause!** **If we know all that is to know, We do not know all that is to know!** ▸ Question 1: MHT in 2027 — who should we absolutely be offering it to, and who must we not? ▸ Question 2: CVD prevention at menopause — utopian or achievable? The cardiologist responds. ▸ Question 3: Can we confidently say MHT does not increase breast cancer risk when initiated in the 'window of opportunity'? ▸ Question 4: Genitourinary syndrome — why are we still not prescribing topical oestrogen adequately? ▸ MHT current status — trough or peak? ▸ Prevention of CVD and dementia — is it a utopian goal? ▸ Genitourinary syndrome of menopause — a distinct entity requiring distinct management
16:00–17:00	Hall 6	**Menopause (cont.) — Osteoporosis** ▸ Screening and strategies for prevention ▸ Bone mineral density monitoring — fracture risk assessment and long-term management targets ▸ Therapeutics of osteoporosis ▸ Future is brighter – newer pharmacological tools ▸ Audience Interaction / Discussion ▸ Q&A

9:00–10:00	Hall 7	**SAMPOORNA - FOGSI SESSION**
10:00–11:00	Hall 7	**SAMPOORNA - FOGSI SESSION**
11:00–12:00	Hall 7	**Problem → Solution Symposium : The Blood Would Not Stop — Cases From the Bleeding Edge** **Obstetric Coagulopathy** ▸ Case-1 — ITP vs HELLP beginning? Junior presents; seniors navigate diagnosis sequencing. ▸ Case 2 — Postpartum collapse with massive PPH; clotting studies: PT and APTT both prolonged: DIC vs AFLP vs AFE? Junior presents; seniors discuss the diagnostic and management algorithm simultaneously. ▸ Case 3 — Amniotic fluid embolism : survivor: junior asks 'what did I do right / wrong?' Seniors give candid, constructive review. ▸ Inherited bleeding disorders — they announce their existence! Listen to the whisper ▸ Obstetric and opportunistically allied bleeding disorders ▸ Amniotic fluid embolism — the bolt from the blue never misses the mark!
12:00–13:00	**Hall 7**	**ORATION**
13:00–14:00	**Hall 7**	**LUNCH BREAK**
14:00–15:00	Hall 7	**Conventional Symposium: Pelvic Infection / Inflammatory Diseases — Long Story, Cut Short (Jeeffry Archer)** ▸ Welcome to the world of microbiomes — vaginal and endometrial microbiomes ▸ Infective vaginitis and cervicitis ▸ PID beyond gonorrhoea and chlamydia
15:00–16:00	Hall 7	**FOGSI RESERVED. ICOG Convocation Ceremony**
16:00–17:00	Hall 7	**FOGSI RESERVED - ICOG Convocation (cont.)**

Time	Hall	Session Title
9:00–10:00	Hall 8	**Panel Discussion: Work-Related Musculoskeletal Disorders in Obstetricians and Gynaecologists — Hidden Epidemic!** **Reverse Panel: "My Back, My Hands, My Career — Questions We Never Ask Out Loud"** ▸ Panel must answer: 'What three changes to the operating room or labor ward could we implement tomorrow?' ▸ Personal disclosure segment: senior panellist shares their own injury journey (10 Minutes) ▸ Physical ergonomics — operating room positioning ▸ Special situations: laparoscopy/robotics, labor delivery, office procedures ▸ Emotional ergonomics — the obstetrician's distress
10:00–11:00	Hall 8	**Fish-Bowl Discussion: Obstetrician's Health and Family — It's Time We Think Collectively** **The Doctor Who Is Always Available — Except for Herself"** ▸ Trainee's and obstetrician's infertility, pregnancy, and medical training — a hidden crisis ▸ Epistemic injustice and gaslighting in healthcare ▸ Opening question: 'When was the last time you sought medical help for yourself — and did you hesitate?' ▸ Inner circle discusses: infertility in trainees, pregnancy during training, gaslighting in healthcare ▸ Burnout syndrome — do we burn at both ends?
11:00–12:00	Hall 8	**-----FOGSI RESERVED-----** **Dr. Jagdishwari Mishra Lecture** **Dr. P.C. Mohapatra Oration**
12:00–13:00	**Hall 8**	**ORATION**
13:00–14:00	**Hall 8**	**LUNCH BREAK**
14:00–15:00	Hall 8	**Panel Discussion : Labor Room Realities — Small Nuances, Massive Comfort** **Trivia During Labor — Though Looks Insignificant, Makes Life Very Comfortable** ▸ Positions during delivery (incl. water birth), bearing-down efforts, femoral rotation, perineal "ironing", Kristeller's manoeuvre, cord clamping ▸ Shoulder dystocia — Catch-22 in the real sense! ▸ Postpartum hip pain — pearls and pitfalls from orthopaedic hip specialists
15:00–16:00	Hall 8	**FOGSI RESERVED. Quiz**
16:00–16:30	Hall 8	**FOGSI RESERVED. Quiz (cont.)**
16:30–17:00	Hall 8	**-----**

9:00–10:00	Hall 9	**Beyond NIPT "sitaron se aage jahan aur bhi hain"** ▸ Fetal anomalies — from diagnosis to planning of delivery ▸ Genetic investigations in cerebral palsy — NESHIE and CP genetics ▸ Fetal diagnostics now and in future — the Dos and Don'ts in genome sequencing ▸ Audience Interaction / Discussion ▸ Q&A
10:00–11:00	Hall 9	**Conventional symposium : Fetal Senses and Their Development** ▸ Touch and pain — anatomy and physiology ▸ Hearing — development and implications ▸ Immediate responses to stimulation — what does the fetus sense?
11:00–12:00	Hall 9	**ROUND TABLE Disscussion: Cord Blood Banking and Stem Cell Science — Story of Failed Promises? Will It Acquit Itself?** ▸ Cord blood banking basics — let us straighten the fundamentals ▸ Stem cell research and clinical translation — latest guidelines ▸ Induced pluripotent cells therapy for ovarian insufficiency — the dream come true?
12:00–13:00	**Hall 9**	**ORATION**
13:00–14:00	**Hall 9**	**LUNCH BREAK**
14:00–15:00	Hall 9	**Fetal Medicine — Research Updates and Emerging Frontiers** ▸ Ultrasound markers for pre-eclampsia and preterm birth — detailed exploration ▸ Sub-phenotypes of early-onset severe pre-eclampsia at hospital admission ▸ Use of iBAT inhibitors for severe intrahepatic cholestasis of pregnancy ▸ Audience Interaction / Discussion ▸ Q&A
15:00–16:00	Hall 9	**Panel Discussion : Haemoglobinopathies and Rh Iso-immunisation** ▸ Haemoglobinopathies in pregnancy — diagnosis and counselling ▸ Rh iso-immunisation — prevention, monitoring and management ▸ New pharmacogenomics — newer molecules in obstetrics
16:00–17:00	Hall 9	**Panel Discussion : Expert Interview — Hot Seat** **Müllerian Duct Anomalies — From Cataloguing Phenotypes to Discovering Causation** ▸ Müllerian duct development — genetics, molecular and cellular mechanisms ▸ Disruption of Müllerian developmental and differentiation processes — ESHRE/ESGE classification ▸ Obstetric signatures of Müllerian anomalies in recurrent pregnancy losses

Time	Hall	Session Title
9:00–10:00	Hall 10	**AI**
10:00–11:00	Hall 10	**AI**
11:00–12:00	Hall 10	**AI**
12:00–13:00	**Hall 10**	**ORATION**
13:00–14:00	**Hall 10**	**LUNCH BREAK**
14:00–15:00	Hall 10	**MLC**
15:00–16:00	Hall 10	**Panel Discussion: Obesity — Define and Diagnose: Is BMI a Good Start?** ▸ Define and diagnose — is BMI a good start? ▸ How do I get overweight/obese? — my genes, my endocrines ▸ Why do I not lose weight? — pharmacotherapeutics: semaglutide, Mounjaro **You Know BMI Is Imperfect — Now Tell Me What You Actually Do.?** ▸ Define and diagnose — is BMI a good start? ▸ Poll 1: 'In your practice, what threshold do you use for obesity classification in Indian women?' — live results shown; panel discusses variations. ▸ How do I get overweight/obese? — my genes, my endocrines ▸ Why do I not lose weight? — pharmacotherapeutics: semaglutide, Mounjaro
16:00–17:00	Hall 10	**Conventional lectures - Obesity (cont.) — I Reduced the Weight; Why Do I Not Sustain?** ▸ Weight reduction — sustainability challenges ▸ (OB and OB) Obesity and Obstetrics — a dangerous alliance ▸ Obesity and gynaecological ailments — infertility, menstrual disorders, metabolic disorders ▸ Audience Interaction / Discussion ▸ Q&A

Tentative Scientific Programme

Sunday | Day 3 | 10th January, 2027

Time	Hall	Session Title
9:00–10:00	Hall 1	**Latent Phase of Labor Problem → Solution Symposium:** **"She Is 2 cm at 3 AM — What Do I Do Next?"** ▸ Contemporary physiology, definition & duration — beyond Friedman's curves ▸ Case 1 — Nullipara, 39 weeks, in hospital 14 hours, 2–3 cm dilated, fetal monitoring normal, family demanding action: what is latent phase mismanagement? Senior A: Friedman beyond; Senior B: the woman's experience matters. ▸ Risk assessment and impact on maternal and fetal morbidity ▸ Case 2 — VBAC candidate, 6 hours in latent phase, mild decelerations on CTG: proceed or deliver? Junior presents; seniors navigate the scar uterus overlay. ▸ Decision algorithms, management strategies — know our iatrogenic delays ▸ Case 3 — Latent phase prolonged to 24 hours in a GDM patient: iatrogenic delay or justified caution? Seniors discuss the decision algorithms
10:00–11:00	Hall 1	**"Physiological Birth" — Redefining Normal in Modern Practice** ▸ Consensus definition: evolution of the WHO 1997 definition ▸ Hormonal cascades and fetal adaptation mechanisms ▸ Minimizing unnecessary interventions — cascade of interventions: evidences and contrary behaviours. ▸ Audience Interaction / Discussion ▸ Q&A
11:00–12:00	Hall 1	**Panel Discussion: Evidence Based Interventions in Stage 1 of Labor** ▸ Fetal monitoring definitions — under the cloud! ▸ Live CTG interpretation exercise: 3 strips shown, audience classifies (electronic polling). Panel reviews variances with the guidelines. ▸ Stage 1 abnormalities — active phase disorders; masterly inactivity is management **'Masterly inactivity' debate: when is waiting management — and when is it negligence? Audience argues; panel adjudicates** ▸ Proactive/active management options **Audience-designed protocol: 'What would be the ideal active phase intervention protocol for an Indian district hospital?'**
12:00–13:00	Hall 1	**FOGSI MSD ORATION**
13:00–14:00	**Hall 1**	**LUNCH BREAK**
14:00–15:00	Hall 1	**Panel Discussion: Stage 2 of Labor — Navigating Stage 2 of Labor — Safety, Timing, and Techniques** ▸ Definition — arrest during Stage 2, perineal protection and bearing-down efforts ▸ Shortening Stage 2 safely — the controversy of episiotomy ▸ Recent most guidelines for Stage 2
15:00–16:00	Hall 1	**Conventional symposium: Stage 3 of Labor — From Classical to Contemporary** ▸ The myometrial microenvironment — transcriptomics, gap junctions, membrane immunology ▸ Uterine segmentation: upper-lower segment separation and coordinated myometrial activity ▸ Placental perfusion dynamics, separation mechanisms — future research directions
16:00–17:00	Hall 1	**Management of Stage 3 — Prophylaxis and Active Management** ▸ The Oxytocin controversy — molecules, dose, route and timing; uterotonics: one or more? ▸ Tailoring the approach — blood loss estimation accuracy, early recognition ▸ Emerging areas: genetic factors in bleeding risk, real-time blood loss monitoring ▸ Audience Interaction / Discussion ▸ Q&A

9:00–10:00	Hall 2	**REVERSE PANEL DISSCUSSION: P(E)MOS — Welcome to the Era of the "P(E)MOlogist"!** ▸ One has inherited that "string of pearls" — fetal origin of P(E)MOS ▸ Recent classification: ovarian and gonadotrophic hormones in the backdrop ▸ Other endocrinal alterations — they too need to be managed! ▸ Final segment: each panellist answers in 60 seconds — 'The one thing you wish every gynaecologist knew about PCOS from your specialty's perspective.'
10:00–11:00	Hall 2	**Conventional symposium: P(E)MOS — Reproductive Difficulties and Beyond** ▸ Reproductive difficulties and options — AMH blockers: what is the future? ▸ Hyperandrogenism — do we need to manage separately? ▸ Ailment that lasts throughout the lifespan — do not forget after successful ART!

Time	Hall	Session Title
11:00–12:00	Hall 2	**SOLUTION SYMPOSIUM: Hirsutism — "She Is Distressed by Her Hair Is It Merely a Cosmetic Problem? "— Am I Treating the Right Problem?** ▸ Case 1 — A 24-year-old woman with hirsutism and normal hormones: her Ferriman-Gallwey score is 10. Do I treat? Junior presents; seniors discuss diagnosis precision and psychological burden. ▸ Case 2 — A 30-year-old woman with hirsutism, irregular periods, and elevated DHEAS. The endocrinologist says 'adrenal'; the gynaecologist says 'ovarian.' Junior moderates the conflict; seniors navigate. ▸ Case 3 — A 45-year-old woman requesting antiandrogen therapy for hirsutism while on COC: drug interactions, safety, and the long-term plan. Seniors discuss management nuance. ▸ Embryology and physiology of hair — evolutionary history: begin at the beginning! ▸ Endocrinal backdrop and nuances of diagnosis ▸ Management
12:00–13:00	**Hall 2**	**ORATION**
13:00–14:00	**Hall 2**	**LUNCH BREAK**
14:00–15:00	Hall 2	**Panel Discussion : Prolactin — The Most Gynaecologist-Friendly Endocrinal Aberration** **Prolactin Dilemmas — Decoding Fallacies and Management Gaps** ▸ Heterogeneity and reflection on hormonal results ▸ Diagnosis and fallacies ▸ Management guidelines
15:00–16:00	Hall 2	**FOGSI RESERVED — Kamini Rao Yuva Oration + 4 Short Orations**
16:00–17:00	Hall 2	**FOGSI RESERVED — Movicol Awards**

9:00–10:00	Hall 3	**FOGSI RESERVED** **FOGSI-NMOGS Mandakini Parihar Lecture** **FOGSI-Prof. S.N. Mukherjee Oration**
10:00–11:00	Hall 3	**Conventional symposium: Multi-fetal Pregnancy — More Is NOT the Merrier** ▸ Clinical management — conflicting guidelines: resolutions ▸ Risk stratifications, biomarkers and prevention ▸ Delivery decisions — timing and method
11:00–12:00	Hall 3	**PANEL DISSCUSSION: Multi-fetal Pregnancy — Special Situations Managing Stage 2 with the second twin** **Oxford-Style Debate:** **This House Believes That Multi-fetal Pregnancy Reduction Is Ethically Justified and Should Be Offered Routinely in Triplet and Higher-Order Pregnancies** ▸ Higher-order pregnancies ▸ Pre-debate audience vote. ▸ FOR (2 speakers): Evidence on perinatal mortality, maternal morbidity, long-term developmental outcomes. **AGAINST (2 speakers): Ethical grounds; loss of a wanted fetus; psychological sequelae; data on expectant management.** **Conventional lecture:** **Managing Stage 2 with the second twin**
12:00–13:00	**Hall 3**	**ORATION**
13:00–14:00	**Hall 3**	**LUNCH BREAK**
14:00–15:00	Hall 3	**DEBATE: "Preterm Birth — Why Have We Not Moved the Needle in 30 Years?"** ▸ Global stagnation and economics — inflammation/hormonal dysregulation; emerging predictive biomarkers ▸ Evidence-based prevention strategies 4 faculties debating controversies + 2 co-ordinators **Controversy 1: Is progesterone supplementation still justified for prevention of preterm birth in women with a short cervix?** ▸ Summary A — The clinical trialist: PROLONG, OPPTIMUM — the evidence has shifted; progesterone may not work. ▸ Summary B — The clinician: these trials do not reflect my patient population; biological plausibility remains. ▸ Vote + reconciliation. **Controversy 2: Are microbiome interventions the next frontier — or is it too premature to opine?** ▸ Summary A — Vaginal microbiome dysbiosis is a causal pathway; Lactobacillus interventions are biologically plausible. ▸ Summary B — No RCT evidence for clinical microbiome interventions; promising but not ready. ▸ Vote + consensus. **Conventional lecture:** ▸ Active management of preterm labor
15:00–16:00	Hall 3	**Preterm Birth (cont.) — Prevention and Management** ▸ Emerging trends — new targets and microbiomes ▸ Cervical insufficiency — diagnosis and management controversies ▸ Environmental drivers of preterm birth — toxins, microplastics, climate change and mitigation ▸ Audience Interaction / Discussion ▸ Q&A

Time	Hall	Session Title
16:00–17:00	Hall 3	**Panel Discussion: Post-term or Optimum Term? Balancing Risk and Nature in Induction.** **Post-term / Optimum Term — The "Late Latifs" Get Risky!** ▸ Placental ageing and insufficiency — CRADLE-4 trial, ARRIVE trial ▸ Immediate risks and long-term outlooks ▸ Timing and methods of induction — how to mimic Mother Nature?
9:00–10:00	Hall 4	**Hysteroscopy — "Cinderella" of Gynaecological Endoscopy** ▸ The road travelled so far… ▸ Ultrasound to Hysteroscopy — Building the Bridges! ▸ Hysteroscopy for Targeted Indications — CS Scar Pregnancy, AVM & Sub-fertile Women ▸ Audience Interaction / Discussion ▸ Q&A
10:00–11:00	Hall 4	**Hysteroscopy — Targeted Uses (cont.)** ▸ Hysteroscopy for retained products of conception ▸ Intra-uterine space-occupying lesions ▸ Prevention of synechia after abortion ▸ Audience Interaction / Discussion ▸ Q&A
11:00–12:00	Hall 4	**FOGSI RESERVED — FOGSI Prizes & Awards** **Dr. R.D. Pandit | Dr. Kumud P. Tamhaskar | Dr. Nimish R. Shelat Research Award | Dr. Shanti Yadav Award in Infertility**
12:00–13:00	**Hall 4**	**ORATION**
13:00–14:00	**Hall 4**	**LUNCH BREAK**
14:00–15:00	Hall 4	**Panel Discussion: Female Sexual Medicine — Moving Beyond Taboos to Clinical Clarity** **Female Sexual Medicine — Taboo or Ignorance?** ▸ Evolution of sex, sexual health and dysfunction for females ▸ Female sexual response — current modules and concepts ▸ Road-map of female sexual health assessment
15:00–16:00	Hall 4	**Round Table Discussion: Female Sexual Medicine (cont.) — Communication and Dysfunction** **The Consultation That Never Happens — Starting the Sexual Health Conversation** ▸ Communication challenges and skill ▸ Sexual pain disorders ▸ Hypoactive sexual desire disorder ▸ Table A— Cultural and religious barriers to sexual health discussions in the Indian context: what works? ▸ Table B — Postpartum sexual dysfunction: when and how to raise it, what to offer. ▸ Table C — Sexual pain disorders: vulvodynia, vaginismus — assessment tools and referral. ▸ Table D — Hypoactive sexual desire disorder — pharmacological options and their place.
16:00–17:00	Hall 4	**Fish-Bowl Discussion : Translational Medicine — From Laboratory to Bedside** ▸ Basics of translational science principles ▸ Translational science applied to Ob-Gyn subjects ▸ Discovery 1 — Cell-free fetal DNA for prediction of pre-eclampsia at 10 weeks: ready for clinical implementation? ▸ Discovery 2 — Stem cell therapy for Asherman syndrome: promising, but what does the evidence actually say? ▸ Deep phenotyping ▸ Concept ▸ Discovery 3 — Deep phenotyping in endometriosis: can genomic subtypes guide surgery?
9:00–10:00	Hall 5	**PANEL DISSCUSSION: Ovarian Cancers — Miles to Go Before One Rests!** ▸ Targeted therapy — beyond PARP inhibitors, Antibody drug conjugates and other techniques, Precision medicine — immunotherapy. ▸ Theme 1 — PARP inhibitors: who benefits most, who has already been over-treated? ▸ Theme 2 — Antibody-drug conjugates: the evidence, the side-effects, and the price in the Indian context. ▸ Theme 3 — Immunotherapy in ovarian cancer: why have checkpoint inhibitors not delivered what breast cancer saw? ▸ Theme 4 - -----
10:00–11:00	Hall 5	**Onco-fertility — The Future Is Not That Bleak! Cheers!** ▸ Carcinoma in situ of cervix ▸ Unilateral ovarian germ cell tumours ▸ Atypical glandular cells and endometrial hyperplasia ▸ Audience Interaction / Discussion ▸ Q&A
11:00–12:00	Hall 5	**Conventional symposium : Gestational Trophoblastic Diseases — When the Nurturer Turns Killer** ▸ Current concepts in diagnosis and evaluation — beyond beta-hCG ▸ Management approach and salvaging fertility ▸ High-risk / MTX-resistant disease — multi-drug therapy and/or immunotherapy
12:00–13:00	**Hall 5**	**ORATION**

Time	Hall	Session Title
13:00–14:00	**Hall 5**	**LUNCH BREAK**
14:00–15:00	Hall 5	**Panel Discussion : Telemedicine and Remote Fetal Monitoring — The Digital Frontier** **Telemedicine — Distant Relations, Distant Healthcare!** ▸ Telemedicine model for antenatal care — virtual + personal ▸ Remote monitoring of the fetus ▸ Real-life case management
15:00–16:00	Hall 5	**Remote Monitoring During Labour — What Is the Mobile Number of the Fetus In Utero?!** ▸ Home fetal monitoring ▸ Risk assessment tools ▸ Rapid referral system ▸ Audience Interaction / Discussion ▸ Q&A
16:00–17:00	Hall 5	**Remote Competency-Based Training — A Boon for In-Service Training** ▸ Training adaptations ▸ Recalls and supports ▸ Medico-legal status of remote-trained practitioners ▸ Audience Interaction / Discussion ▸ Q&A
17:00–18:00	Hall 5	**Live Tech Walkthrough & Gamified OSCE** ▸ Live Platform Sandbox. Walk through a real remote training platform or simulator live, highlighting telemetry and scoring. ▸ Gamified Mock OSCE. Run a live, interactive poll simulating a remote Objective Structured Clinical Examination checklist. ▸ Answer logistical questions regarding licensing, proctoring, and hospital credentialing for in-service staff.
9:00–10:00	Hall 6	**Labor Dystocia — Anything That Is Dystocial Is Dangerous** ▸ Identifying dystocic labor — Friedman's chart: shall we move further? ▸ Intrapartum fetal monitoring — are our resources reliable? ▸ Metabolomic pathways predicting labor dystocia — beyond pelvic examinations ▸ Audience Interaction / Discussion ▸ Q&A
10:00–11:00	Hall 6	**Conventional symposium : Pain Management During Labor — A Human Right (Under the Geneva Convention)!** ▸ Continuous ambulatory epidural analgesia — the gold standard: is it all gold? ▸ Systemic agents — efficacy and safety ▸ Non-pharmacological agents and procedures — where are the evidences?
11:00–12:00	Hall 6	**Operative Vaginal Deliveries — In 2037, a Sweet Thing Asks "What Is That"?** ▸ Vacuum assistance — that instrument is worth its weight in gold! (apologies to Prof. Ian Donald) ▸ Odon device — mechanically modified vacuum ▸ Forceps, ECV, internal podalic version — endangered/extinct species! ▸ Audience Interaction / Discussion ▸ Q&A
12:00–13:00	**Hall 6**	**ORATION**
13:00–14:00	**Hall 6**	**LUNCH BREAK**
14:00–15:00	Hall 6	**PANEL DISSCUSSION: Labor Traumas — The Price of the Upright Posture or Evolutionary Supremacy?** ▸ Case 1 — 3rd-degree perineal tear identified 2 hours post-delivery in a district hospital: immediate repair or transfer? Junior presents; Senior A: the repair; Senior B: the post-repair follow-up and physiotherapy pathway. **Episiotomy and perineal injuries** ▸ Case 2 — Anal sphincter injury identified at 6-week postnatal check: the woman reports faecal urgency but was told 'it is normal.' Junior presents; seniors discuss delayed recognition and management. **Anal sphincter injuries** **Conventional Lecture:** ▸ Cervical tears and pelvic extensions
15:00–16:00	Hall 6	**DEBATE: Structured Controversy : Caesarean Sections — If One Cannot Jump Over the Fence…!** ▸ Choice of incisions — skin, uterine walls and closure techniques; minimalist approach (Misgav-Ledach) **Controversy 1: Misgav-Ladach vs modified Joel-Cohen vs Pfannenstiel — does the choice of incision actually matter for outcomes?** ▸ Summary A — Evidence for Misgav-Ladach: less blood loss, faster recovery, lower adhesion risk. ▸ Summary B — Pfannenstiel has a lower cosmetic scar complication rate and familiar anatomy; outcome differences are marginal. **Controversy 2: Single-layer vs double-layer uterine closure — does it affect future VBAC safety?** ▸ Summary A — Single-layer: adequate for immediate outcome; uterine rupture data is inconclusive. ▸ Summary B — Double-layer closure: the precautionary principle applies when VBAC rates are rising **Vote + reconciliation** **Student – Teacher tutorial:** ▸ Delivery of the baby and difficult deliveries ▸ Early/enhanced recovery after caesarean section

Time	Hall	Session Title
16:00–17:00	Hall 6	**Panel Discussion: The Placenta Accreta Spectrum Cartel — Team Management Placental Implantation Disorders — Placenta Accreta Spectrum** ▸ Diagnosis — from scar ectopic to placenta percreta: the long stretched-out spectrum ▸ Immunovascular abnormalities and molecular markers ▸ Management options — multi-speciality enterprise: form a cartel!
9:00–10:00	Hall 7	**FOGSI GCPR — Session A: Evidence Review** ▸ Review of GCPR recommendations – select 3 to 4 ▸ Evidence-based practice guidelines and implementation strategies for Indian practice ▸ Protocols for common conditions and national audit data review ▸ Audience Interaction / Discussion ▸ Q&A
10:00–11:00	Hall 7	**PANEL DISSCUSSION: FOGSI GCPR — Session B: Controversy Resolution Panel Experts** ▸ Contested recommendations debated — controversy resolution panel ▸ Guideline implementation challenges in Tier 2/3 cities ▸ Audience Q&A and panel discussion — bridging the evidence-to-practice gap
11:00–12:00	Hall 7	**FOGSI GCPR — Session C: Closing Plenary and Implementation Commitments** ▸ Review of all GCPR recommendations across conference days ▸ National implementation roadmap ▸ Audience vote on priority recommendations — adoption declaration ▸ Audience Interaction / Discussion ▸ Q&A
12:00–13:00	**Hall 7**	**ORATION**
13:00–14:00	**Hall 7**	**LUNCH BREAK**
14:00–15:00	Hall 7	**Reverse Panel Discussion: Breast Diseases — Whose "Breast" Is It, Anyway?** ▸ A disease of sophistication? — mammography screening ▸ Deciphering mammography screen — benign breast diseases ▸ Breast malignancy — management algorithm
15:00–16:00	Hall 7	**Oxford-Style Debate : This House believes that Rejuvenative Gynnecology Procedures without clear Medical Indications should bnot be performed or promoted** **Reconstructive and Rejuvenative Gynecology — Session 1: Foundations and Philosophy** ▸ Defining rejuvenative gynaecology — where aesthetics meets function ▸ The medico-legal and ethical framework — informed consent, advertising and professional boundaries ▸ Energy-based devices — radiofrequency, laser, HIFU for vulvovaginal rejuvenation
16:00–17:00	Hall 7	**Panel Discussion: Surgical Realities in Reconstructive and Rejuvenative Gynaecology — Procedures, Evidence, and Ethics** **Reconstructive and Rejuvenative Gynecology— Session 2: Emerging Procedures and Ethics** ▸ Hymenoplasty, perineoplasty and G-spot amplification — evidence and counselling ▸ Labial procedures — labiaplasty, labia majora augmentation; indications, techniques and evidence ▸ Vaginal laxity and rejuvenation — surgical and energy-based options; managing patients' expectations
9:00–10:00	Hall 8	**Flipped Session: "You Know the Protocols — Now Tell Me Why You Did Not Follow Them"** **Infection Prevention Practices — Nowhere Is Prevention So Much Better Than Cure!** ▸ Multiple determinants of infection prevention and control practices ▸ Surgical site infections — vault and abdominal incisions after hysterectomy ▸ Universal precautions ▸ Audience Interaction / Discussion ▸ Q&A
10:00–11:00	Hall 8	**Intrapartum Ultrasound — The Obstetrician's "Finger" Gets Redundant!** ▸ Rationale and parameters ▸ Visual biofeedback ▸ ------ ▸ Audience Interaction / Discussion ▸ Q&A
11:00–12:00	Hall 8	**PANEL DISSCUSSION: Matrescence / "Pregnancy — A Birth of a New You" / IV Trimester** ▸ Theme 1 — Hormonal revolution: what is happening in the first 6 weeks, and what clinical symptoms does it explain? ▸ Theme 2 — Postpartum depression vs baby blues vs postpartum psychosis: the diagnostic clarity that changes management. ▸ Theme 3 — 'She seemed fine at the 6-week check': what are we missing in the routine postnatal consultation? ▸ Theme 4 — Patient voice: what did you actually need in the 4th trimester that no one offered? ▸ Hormones and their changes ▸ Systemic transformation ▸ Psychological/psychiatric issues — postpartum depression and beyond
12:00–13:00	**Hall 8**	**ORATION**

Time	Hall	Session Title
13:00–14:00	**Hall 8**	**LUNCH BREAK**
14:00–15:00	Hall 8	**-----**
15:00–16:00	Hall 8	**Adolescent Gynecology – let it be : "Adolescentology" – Sounds more inclusive!** ‣ Primary ovarian nsufficiency/it is never primary?! ‣ Reassessing Workup Guidelines: A Call for Change ‣ Prepubertal Vaginal Bleeding: Do not forget other varieties AUBs ‣ Endometriosis in Adolescents
15:57–16:07	Hall 8	**Audience Interaction / Discussion**
16:07–16:12	Hall 8	**Q&A**
16:12–17:12	Hall 8	**Panel Discussion : Puberty Disorders - Growth, Fertility Preservation, and Specialization** **Puberty Disorders** ‣ Bone Growth and Final Adult Height in Girls with Central Precocious Puberty ‣ Fertility Preservation in Childhood Cancer Survivors, Previously Treated with Chemotherapy—Is It Effective? ‣ Do We really Need Paediatric/ Adolescent Gynecologists?

9:00–10:00	Hall 9	**Conventional symposium: Caesarean Scar Pregnancy — Not Merely an Ectopic Pregnancy!** ‣ CSP — journey in evolution: what is the destination? ‣ CSP — the tools to unveil the secret: imaging and molecular diagnosis ‣ CSP — treat and sound the siren for the next Gordon's Knot: management options and predictions
10:00–11:00	Hall 9	**Problem → Solution Symposium: Induction of Labor** ‣ Case 1 — Post-dates induction: 40+10 weeks, unfavourable cervix, no medical comorbidity. Which agent, which dose, which monitoring? Junior presents; senior A: the ARRIVE trial in Indian context; senior B: the patient conversation about risk. ‣ Case 2 — IUGR at 37 weeks, contemplating induction: what is the evidence threshold? Senior A: fetal surveillance parameters; senior B: delivery planning and neonatal readiness. ‣ Case 3 — Previous CS, unfavourable cervix, no medical indication but maternal request: foley catheter, misoprostol or wait? Seniors navigate VBAC-IOL evidence and consent. ‣ Again, fetus calls the shots! — endocrinology of labor ‣ Think before you leap, prepare before you commit — pre-induction cervical ripening ‣ Post-ripening augmentation — go for the jugular!
11:00–12:00	Hall 9	**Conventional lecture : Uterine Transplant – Beyond procreation , Artificial Womb** ‣ The Artificial Womb ‣ Uterine Transplant – Beyond procreation ‣ Development of an artificial womb for extremely preterm infants — where is the science? ‣ Audience Interaction / Discussion ‣ Q&A
12:00–13:00	**Hall 9**	**ORATION**
13:00–14:00	**Hall 9**	**LUNCH BREAK**
14:00–15:00	Hall 9	**Panel Discussion : Monogenic Causes of Infertility — Moving Beyond the Basics Monogenic Causes of Infertility — Moving Beyond the Basics** ‣ Social oocyte freezing — ethical and practical dimensions ‣ Genetic screening before ART — what, when and for whom? ‣ Prevention of poor ovarian response — MTHFR gene and beyond
15:00–16:00	Hall 9	**Round Table Discussion: ART in India — The Law Changed. Has Practice?"** **ART Law 2021 and Medico-Legal Issues in Reproductive Medicine** ‣ ART Law 2021 — what changed and what it means for practice ‣ Surrogacy law — compliance and clinical implications ‣ Medico-legal aspects of donor gametes and embryo disposition ‣ Table A — Social oocyte freezing: ethical, legal, and practical dimensions under the new law. ‣ Table B — Donor gametes and anonymity: what must patients be told, what records must be kept? ‣ Table C — Surrogacy compliance: what has changed since 2021 and what clinical risks does non-compliance carry? ‣ Table D — Genetic screening before ART: what is legally required, what is ethically expected, and what are labs actually doing?

FOGSI Member / Non-Member / PG Student / Foreign Countries / SAFOG Countries	**Accompanying Person**	**Registration Fee Does Not Include**
• Delegate Badge and Program Book • Delegate Kit Bag • Certificate of Attendance • Buffet Lunch on 8th, 9th And 10th Jan • Inaugural Dinner on 7th Jan • Cultural Dinner on 8th Jan • Access To All Scientific Sessions on 8th, 9th and 10th Jan • Access To Industry Exhibition Zone	• Accompanying Badge • Accompanying Kit Bag • Buffet Lunch on 8th, 9th and 10th Jan • Inaugural Dinner on 7th Jan • Cultural Dinner on 8th Jan • Access to Industry Exhibition Zone	• Airport Transfers • Transfers from the Hotel to Venue to Hotel • Accommodation • Travel Insurance
• Kit Bag for On-Spot Registrations are subject to availability and are not confirmed		

General Registration Guidelines

- This Registration Form is intended exclusively for individual doctors. Registrations sponsored or funded by pharmaceutical companies are not permitted.
- As per NMC/MCI ethical guidelines, pharmaceutical companies cannot sponsor doctors for conference registration. Doctors are required to complete their registration independently "from their own personal account" and bear the applicable registration fee "in their own name" as receipts are only issued in registering doctors name from the account AICOG 2027 SURAT SOGS.
- **The Organising Committee AICOG 2027 Surat will not be responsible for any registration made on this registration form by a pharma company on behalf of any Doctor who will do so at his/her own risk and liabilities with NMC / MCI .**
- Registration for the conference can be done (a) by filling the above registration form in offline mode (b) through conference website **"www.aicog2027surat.com"** in online mode
- Conference Registration is mandatory for **workshops, CG Saraiya CME & Banquet.**
- Conference Registration is mandatory for all the delegates including children above the age of 10 years.
  If Accompanying Person are below 10 years of age, please mention their name & age to help us plan activities for better management.
  (Please carry a valid photo id proof to collect the badge, only meals will be included, no kit bag)
- Photo ID is mandatory for all registered participants for Security Reasons to enter the Conference Area and to collect the Registration Badge
- Please note, Accompanying Person of FOGSI Member (Above 75 years) will be on chargeable basis as per Registration Fee Slab.
- Please ensure to wear a registration badge (Bar/QR Coded) in the conference area.
- If a Registration badge is lost, a duplicate badge can be issued for a non-refundable fee of INR 500, payable in advance.
- Registration is non-transferable.
- Delegate must bring a Registration Confirmation Letter at the time of registration. Along with valid Photo ID.
- PG Students will have to submit a no-objection NOC letter from Head of the Institute.
- Please provide your Medical Council and FOGSI membership number.
- Please mention your registration number in all future correspondence with Congress Secretariat.
- For spot registrations, payment will be accepted only by mode of cash/card/UPI. Demand Draft/Cheques will not be accepted.
- **Kit Bag for On-Spot Registrations are subject to availability and are not confirmed.**
- Delegate kit and Badge would be handed over only to the registered delegate.
- Entry of the Accompanying Person may be restricted to certain areas at the venue of the Event.
- All Remittance/ Bank Charges/ Online Transaction Fees/ Card Payment fee to be paid by the delegate as per bank policy.
- Online & Offline registration will be closed on 20th December 2026.
- GST is subject to change as and when applicable.
- GST amount is non-refundable in any circumstances.
- Refund includes only the registration base amount and does not include GST & card payment/bank charges.
- For any change in the registration slab subsequently, the same will be updated on the website **www.aicog2027surat.com** and shall be effective w.e.f revision date.
- Conference organizers are not responsible for postal delays / failure to deliver by post or failure of electronic communication.
- Organizer will not be responsible for any date change of the conference and any loss or theft of personal belongings.
- All legal disputes shall be subject to Surat jurisdiction.
- For Latest Updates and information, keep visiting **"www.aicog2027surat.com"**
- If you have any inquiries or encounter any difficulties during the registration process, please do not hesitate to reach out to the mentioned details **Mobile: 9560493999/ 7683009277 | Email Id: registration@aicog2027surat.com**

Terms And Conditions

- Organizers reserve the right to reject a registration if found in violation of registration rules or to reassign them to a category which they may deemed fit.
- DD/Cheque should be in favor of **"AICOG 2027 SURAT SOGS"** and should reach the **AICOG 2027** Secretariat office within 10 days of the DD/Cheque issuing date via speed post or registered post/Courier.
- It is requested to send forms and payment promptly well ahead of the slab transition period.

Cancellation Policy

- Cancellation of your conference registration can be done by writing an email to **registration@aicog2027surat.com** clearly stating your registration number in the subject line. The email will have to be sent from the email address you used while registering.
- Cancellations up to 31st August 2026: 50% of Base registration fee will be refunded.
- Cancellations done up to 30th September 2026: 25% of Base registration fee will be refunded.
- Cancellations done after 30th September 2026: No refund.
- All refunds will be processed after 45 days from the completion of the conference.
- Time stamp of email will be considered as official date of cancellation request.

FORCE MAJEURE: AICOG 2027 CONFERENCE POSTPONEMENT & CANCELLATION

AICOG 2027: Organizing Committee/FOGSI governing body shall not be liable for failure or delay to organize the AICOG 2027 Conference, which may become practicably impossible because of circumstances beyond the reasonable control of the organizing committee/FOGSI governing body. Such circumstances include without limitation natural disasters or acts of God; acts of terrorism; labor disputes or stoppages; war; government acts or orders; epidemics, pandemics, or outbreaks of a communicable disease including ongoing COVID-19; quarantines; national or regional emergencies; or any other cause, whether similar in kind to the foregoing or otherwise, beyond the reasonable control of the organizing committee/FOGSI governing body.

Postponement of Conference: Conference dates of AICOG 2027 if affected by force majeure, shall be tolled for the duration of such force majeure, i.e. Not to cancel but reschedule the Conference to revised dates as soon as practicable after the force majeure condition ceases to exist. Any refunds claimed by delegates on account of a change of dates of the Event shall be subject to the cancellation policy published on the website and in registration form.

Cancellation of Conference: If the Force Majeure period lasts for such prolonged times or its residual effects are long-lasting thereby making it impractical to conduct the conference, the event shall be cancelled. In case of cancellation of the event, the refundable deposit shall be returned to the delegates with some deduction (If any) made on account of non-recoverable expenses incurred in the preparations including but not limited to reservations, MARCOM (Mktg. & communication) & IT expenses, Office Admin, Taxation & Professional Fee, etc, as per the decision of FOGSI governing body.

In the scenario, the Conference is converted to Virtual/Online format in the year 2027, a part of the existing registration deposit equivalent to the registration fee of the Virtual Conference shall be auto adjusted towards the virtual conference, while the balance deposit amount shall be refunded to delegates. Complete cancellation and a full refund shall not be admissible.

Please Note: GST/Taxes/Bank charges/Handling fee/ Convenience fee is non-refundable in any circumstances.
